

TSV-391N

ALL to HDMI converter

The brand new TSV-391N incorporates 8 audio/video channels, USB* 2, HDMI* 2, DVI* 1, YPbPr+Audio* 1 and AV* 1. With unique Color Eye Technology, It brings you a brilliant performance, vivid image via HDMI output (extra 1*Coaxial audio output). It is a new generation of multimedia device, which integrates your DVD, game players, PC, STB box, HDD player etc into one set and then hook up to your HDTV or display via an HDMI cable. And it can also allow the content of your HDD, USB disk etc to display on your HDTV directly. The HDMI output resolution can be up to 1080p. HDCP compliant and 3D supported. This is the brand new TSV-391N upgraded performance & slim body.

Full HD 1080P

Most of HDTVs in the market support 720P/1080P resolution

Intelligent recognition

It will automatically detect the input resolution and HDTV's EDID and then match the native resolution of the HDTV

Smart User Interface

LKV391N uses UI, you can see OSD menu directly to make the operation easier and more convenient

Converter + Media Player

LKV391N supports all kinds of USB storage devices, such as USB disk, USB-HDD, MP3, USB card reader, etc. and then make sure the images, audio; video is read, decoded and played.

HDMI 3D output

LKV391N applies unique 2D to 3D pass-through technology to format depth map by parallax, and make vivid 3D effect

Customized boot logo

LKV391n can support customized boot logo to make your Logo come out on the TV as soon as you turn on converter.
